DAKIL

Musical artist | Press kit

Dakil is a musician as much as he is a social butterfly, magnetically connecting people to his music and to each other. He has a musical home base in various major cities, where distinguished musicians from all styles are lining up to play with him.

Queen meets Lenny Kravitz. Big energy onstage, easy to work with behind the scenes.

Everyone in the space is part of the band. No one in the audience left behind. Dakil will rock you.
